No. 7-5/2013-PHM

Dated the 17th June, 2013

To

The Chief General Manager,
All Telecom Circles / Metro Districts / Mtce. Regions

Subject:- Disposal of L & W material available in the field.

There have been frequent queries from the circles regarding the disposal of unused Trunk alignments / Local alignments in our telephone system and other allied L&W material in the field units.

In the this regard, instructions have already been issued by ML cell, BSNL C.O. vide Lr. No. 28-7/2003-ML/768 dated 29.10.2003 and the same is enclosed herewith.

However, the disposal of the above material may be done through MSTC only. The quarterly progress of disposal may be sent to this office regularly.

Encl. As above.

(Rajesh Kumar)
Addl. GM (NWO-I/CFA)

File No. 28-7/2003-ML / 768.

Dated, Monday, 06 October 2003

To

The Chief General Manager
All Telecom Circles/Metro Distts.

Subject: - Removal of spare telephone/trunk line posts.

A number of Trunk Alignments earlier used for inter-city/exchange junction working have been rendered spare due to conversion of media to reliable technologies. These spare alignments are prone to theft, hence, it has been decided that the spare trunk alignments which are not under any use and no further use is envisaged for them may be scrapped and disposed off as per prevalent rules.

Following two options are suggested for disposal of such alignments:

- (i) The whole alignment including all components i.e. wires, poles etc. may be scrapped & disposed off on 'as is where is basis' through tender or through MSTC. ✓
- (ii) The wires may be recovered through tender and disposed off through MSTC. The poles may be disposed off on 'as is where is basis' through tender or through MSTC.

A decision may be taken locally by the GMTD or Area G.M for selecting the option depending upon the local conditions like condition of the alignment, quantity of wire available on the alignment and which option is going to be more suitable financially.

Alignments lying unused in the local telephone systems with no possibility of utilization in near future may also be disposed-off in a similar manner.

A limited number of posts, wires and other material in good condition can be retained if found to be useful for erection of DPs or extending DELs or any other use.

A compliance report in this regard may be forwarded to this office at the earliest.
