To

All PCEs / Sr. CEs / CEs (Elect.),
BSNL.

Sub.:- Providing Earthing by utilizing surplus GI Poles and Wires.

During the review meeting of zonal Chief Engineers (Elect.), a mention was made by one of the zones regarding provision of earthing by utilizing surplus GI Poles & Wires lying scrapped in our telecom stores.

The scrapping and disposal of such store is usually a problem besides occupying valuable space. Utilization of scrapped material for providing earthing will reduce financial burden besides obviating the scrapping process and freeing up space.

The field units may take appropriate action accordingly.

This is issued with the approval of competent authority.
