D.O.No.70-1/2016-SU  
28 March, 2016

*Dear Sri Mital,*

Department of Telecom and Bharat Sanchar Nigam Limited (BSNL) are working on a tight time schedule for early completion of the National Optical Fibre Network Project. BSNL is facing difficulty in getting Right of Way (RoW) permissions for laying underground OFC on lands owned by the Railways. The Railways are demanding track rentals and lease charges for ten years for new cables and enhanced lease rental for a block of ten years for existing cables. Moreover, for the cables laid earlier, demand has also been raised for recurring leeway charges. It has been reported that non-payment of charges for cables laid earlier has led to cables being deliberately cut by railway personnel. The details of some of the locations where BSNL cables have been damaged is enclosed. Copy of notice issued to BSNL Units by Railway Authorities for renewal and demand notes for payment before 31.3.2016 failing which it would lead to cable being cut is also enclosed.

2. May I request your personal intervention to instruct the concerned railway officials not to damage already laid cables and to allow BSNL to restore the damaged cables passing under railway tracks or through railway properties until the issue of RoW is addressed? Further, it is requested permission for RoW for laying OFC and payment of renewal charges on recurring basis needs to be resolved at the earliest.

*With regards,*

Yours sincerely,

*J.S. Deepak*  
(J.S. Deepak)

Encl: As above

Shri A.K. Mital  
Chairman,  
Railway Board, Rail Bhavan,
